

**Resistive Linear Position Transducer****SLPT***Sense the motion*

- Measuring range 10mm – 400mm
- Long mechanical life 100.000.000 cycles
- Excellent repeatability
- Very low temperature drift
- Infinite resolution

**Main Applications**

Metal Forming Machines, Textile Machines, Packing Machines, Printing Machines,  
Marble/ Stone Machines and General Automation Applications

**Specifications**

Mechanical stroke	10mm to 400mm
Linearity	± %0,05
Resolution	Infinite
Resistance output	2 Kohm up to 50mm, 50 to 400 mm 5 Kohm or 10 Kohm
Resistance tolerance	± %20
Load resistance	Min. 100 Kohm
Repeatability	≤ %0.01
Mechanical life	100 * 10 <sup>6</sup> Cycles
Displacement speed	≤ 5 m/s
Permissible applied voltage	28 VDC max
Recommended cursor current	< 1 µA
Electrical connections	cable (30cm)
Case dimensions	Ø 18mm
Case material	Anodized aluminium
Rod diameter	4mm
Rod material	Stainless steel
IP Degree	IP 65
Working temperature	- 20 / + 80 °C
Mechanical fixing	Variable brackets
